THE
VIRGINIA
BEACH
FOUNDATION

June 27, 2005

The Honorable Meyera E. Oberndorf
Mayor
City of Virginia Beach
2401 Courthouse Drive
City Hall, Building #1
Virginia Beach, VA 23456

Re: A Dolphins Promise

Dear Madam Mayor, Meyera:

We, the Foundation, are extremely pleased to be involved with A Dolphins Promise. We compliment you and the City Council for its action in bringing a long sort symbol of our vibrant city to fruition. It goes without saying, I could think of no better organization to support than the Lance Armstrong Foundation for cancer research.

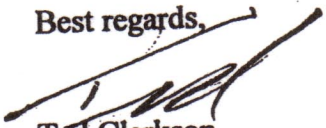

The Foundation, in its role as a community leader, catalyst and broker looks forward to playing an active role in the plan's development.

As Chicago and New York had cows, Cincinnati its pigs, Norfolk its mermaids, Lexington, KY and the Outer Banks its horses, Richmond its rock fish, now Virginia Beach, can rightly point to its dolphins. I venture to say, dolphins will be surfacing in many unsuspecting places.

With Ms. Cindy Graf and her fine team of supporters, I feel rather certain we have a huge success on our hands.

The Foundation is extremely pleased to be the repository of funds for the project.

Best regards,

Ted Clarkson
Executive Director
